

Individual Claim Development with Machine Learning

Bor Harej

Zagreb, 5.6.2017

Purpose

Machine Learning on Practical Example

(De)motivation

Artificial neural networks

” Example

Individual Claim Development

” Methodology

” Data

” Results

(De)motivation for Machine Learning

Motivation

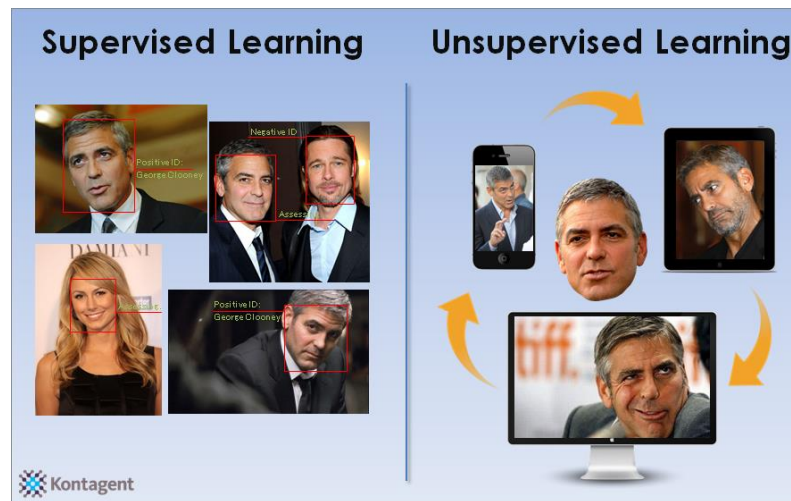

- Actuary (statistician):
 - . Technical background
 - . Big data experiences
- Increasing amount of data
 - . New info?
- Competition
- Pioneering, challenge

Demotivation

- Well defined existing methods
- Consistency
- Comfort zone
- New methods need to be learned and explored

Artificial neural networks

Artificial neural networks

Typically defined
with:

- “ Network of connections
- “ Weights on connections
- “ Activation function

Deep learning

Example of ANN

$$1 * 0.8 + 1 * 0.2 = 1$$

$$1 * 0.4 + 1 * 0.9 = 1.3$$

$$1 * 0.3 + 1 * 0.5 = 0.8$$

Activation function - sigmoid

$$S(1.0) = 0.73$$

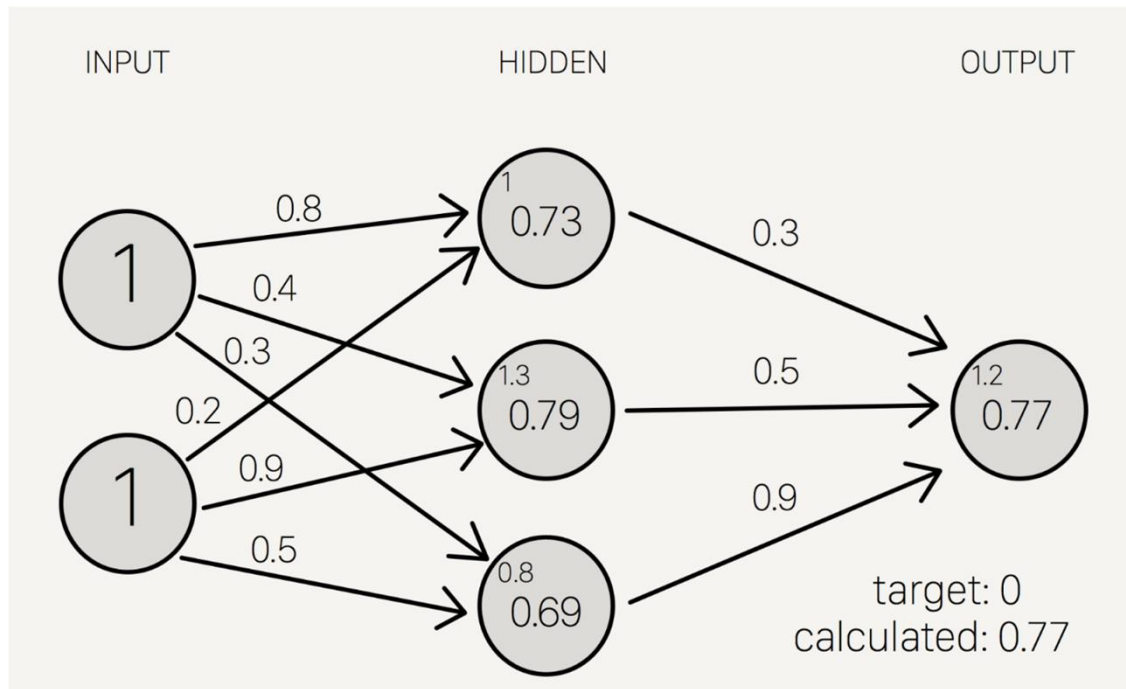

$$S(1.3) = 0.79$$

$$S(0.8) = 0.69$$

$$0.73 * 0.3 + 0.79 * 0.5 + 0.69 * 0.9 = 1.235$$

$$S(1.235) = 0.77469$$

Target = 0
 Calculated = 0.77
 Target - calculated = -0.77

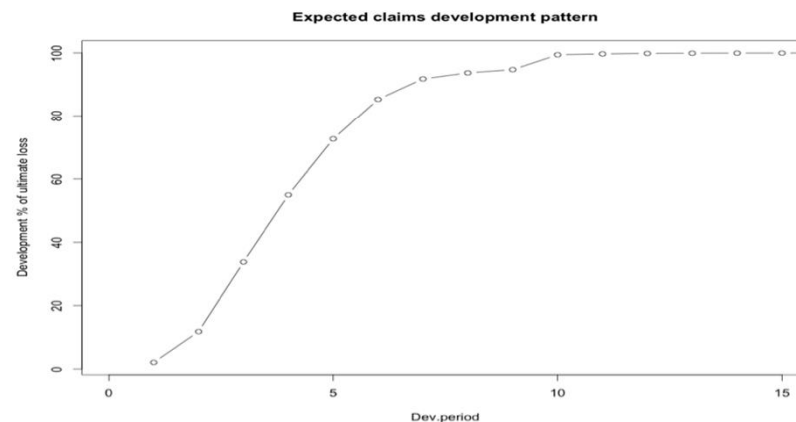

Gradient descent

Individual Claim Development

Chain-ladder develops aggregate claim development

Accident Year	Development year									
	1	2	3	4	5	6	7	8	9	10
1988	233	887	2548	4353	6210	7542	8133	8177	8295	8706
1989	142	828	2758	4412	6060	7448	8208	8555	8622	
1990	189	927	3304	6019	7463	8942	9366	9506		
1991	142	1043	2299	3764	4799	5380	5842			
1992	98	1284	3813	5995	7117	7846				
1993	164	824	2723	4090	6216					
1994	164	1238	3010	4603						
1995	285	1227	3149							
1996	213	858								
1997	163									

Goal: develop individual pattern

Implementation of ANN

- “ Implementation
 - . Inputs
 - “ Paids
 - “ Paids + outs
 - . Three layers
 - “ Optimal number of neurons
 - . Activation function:
 - “ Hyperbolical tangent

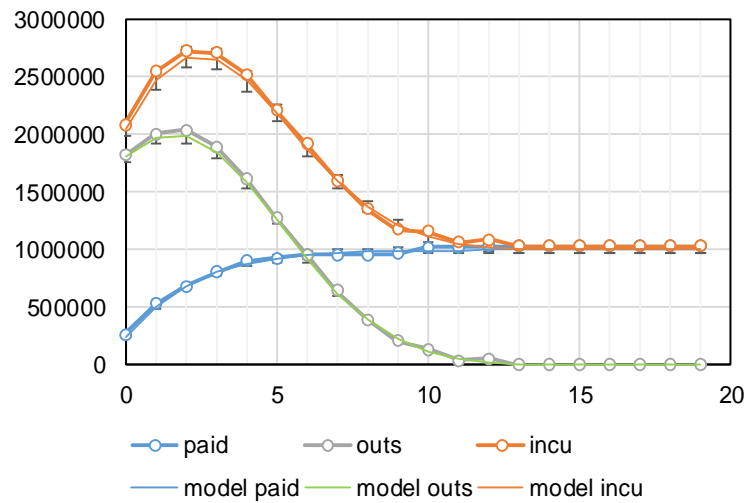

Methodology

Simulated data

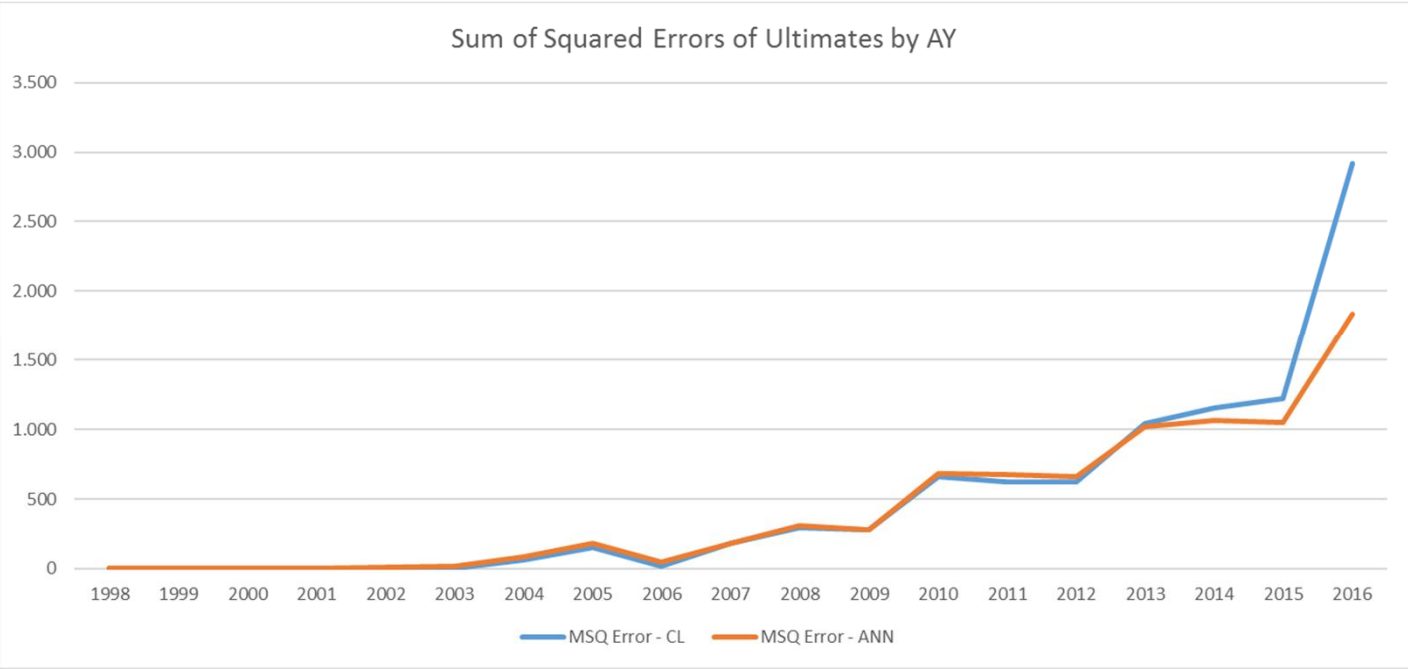

6000 claims, 20 AY

4000 claims, 20 AY

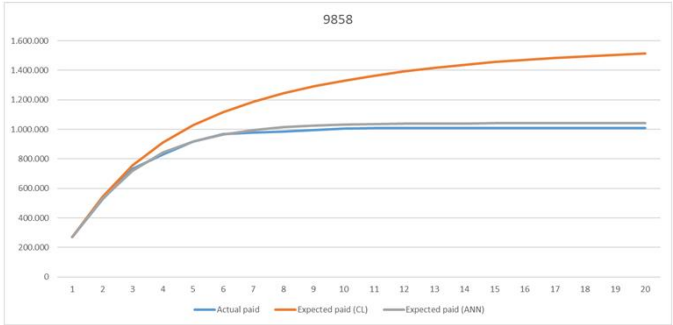

Results

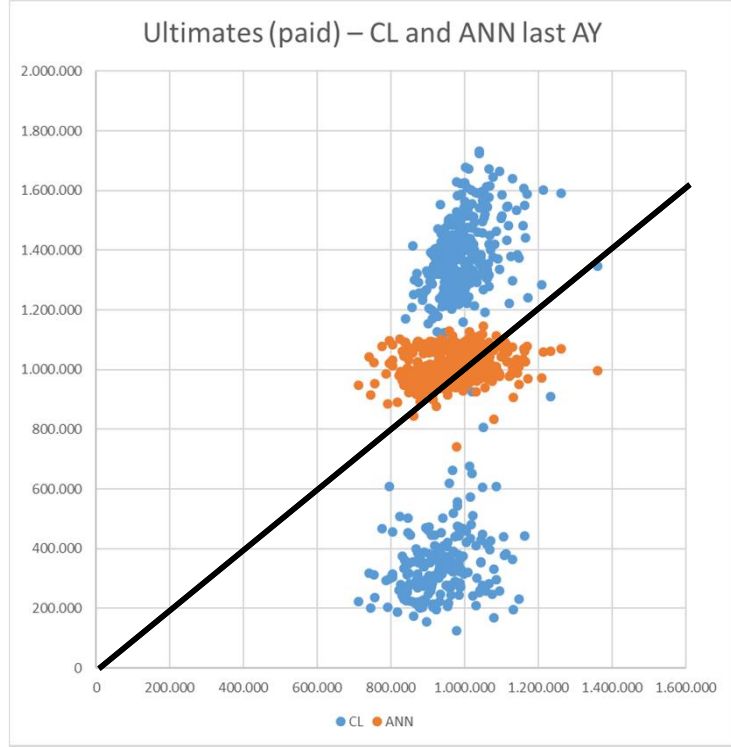

Results

Results together

Ultimates simulated vs predicted

Open issues

- “ Optimal structure of ANN
- “ Real data analysis
- “ Adjusted methodology – one ANN
- “ New parameters

Thank you!

Vse bo v redu.
